## REFOCUS.

We want to create a space where you can have a personal encounter with God. Let us challenge ourselves to strengthen our relationship with Christ by redefining our priorities. He is our foundation - by his power we live and work.

## ENCOURAGE.

Let us learn from each other and become a mutual encouragement across generations and countries. Be encouraged by doctors from all over Europe sharing their personal experiences and visions in challenging lectures and seminars.

## CONNECT.

We want to strengthen long-term networking on a European level. We aim to multiply our impact as Christian medicals. So let us get to know each other and share our perspectives and ideas.

### Dr Pablo Martinez

is a psychiatrist in Barcelona with a special focus on the Medicine of the whole Person and existential psychotherapy. His books have been translated into 20 languages.

### Jason Roach

### Jelenea Sivulka

### Prof John Wyatt
